Reading Comprehension

Read the following passage then answer the questions below:

Black tea was first discovered in China 5000 years ago. There was an old story about the Emperor of China Shen-Nung, who was drinking a cup of boiled water when some tea leaves suddenly fell into his cup. He liked the taste and started drinking it every day. Later, he found that all his pains <u>disappeared</u> and felt well.

Nowadays, most black tea comes from Africa, India and Sri Lanka and is sent all over the world. People in the UK, for example, drink over three cups of tea a day. They say that tea gives you energy in the morning before work, and helps you to relax at the end of a long day.

Scientists discovered some benefits of tea. <u>It</u> is an important part of a healthy diet, just like fruit and vegetables, and you might lose weight if you drink it without sugar Another good news for tea lovers is that it may help to stop cancer.

Reading Comprehension

Read the following passage and answer the questions:

In the past, Kuwait City was a small town. The streets were very narrow; the houses were small and there was no electricity. People used to live on fishing and pearl diving. There were no schools, but the pupils used to go to the teacher's house. There, he taught them in one of the rooms. The pupils learned reading, writing and Quran.

Life was hard and difficult but simple. Now life is different, Kuwait has changed a lot. Today, we can see high buildings, wide streets and beautiful parks everywhere. People now have <u>modern</u> houses and cars. In summer, many people travel to other countries. Some families visit Arab countries such as Lebanon, Egypt and UAE. Other people go to Europe and Africa because the weather is hot in Kuwait in summer.

Life is much better now than it was before because people can get anything they need. Life has become easy and fast. Oil has changed life in Kuwait.

Reading Comprehension

Read the following passage and answer the questions bellow:

Thousands of car accidents happen every day all over the world. They simply take place because people break traffic laws and drive carelessly. Many car drivers face these accidents but they don't know what to do at that difficult time. Here are some tips to follow after accidents if you are one of those unlucky people. The most important thing is to stay quiet. If the driver ran away, try to get his car number, then call the police. If anyone is hurt, call the emergency or the ambulance quickly.

Be ready to give your exact location when you call. Know street number and highway names to help them reach easily. While you are waiting for the police to arrive, take notes about what happened. Write down a description of the other vehicles or cars involved and the names of everyone involved in the accident. If possible take pictures of the accident scene .When the police <u>arrive</u>, tell them what happened calmly.

Reading comperehension

Read the following passage, then answer the questions below:

Indians are the first people who grew potatoes. Then Spanish brought potatoes to Europe, and travellers brought them to America. Potatoes are fourth on the list of the world's important food. Today, Americans eat up about 140 pounds of potatoes per person every year, while Europeans eat twice than them One of the favourite ways to eat potatoes is potato chips. An American chef named George Crum created the first potato chips on August 1853, in New York. He sliced the potatoes as thinly as possible, making them too thin and crisp. People loved them, so he opened his restaurant and offered a basket of potato chips on every table.

In United Kingdom crisps are what people in the United States call potato chips. Ketchup-flavoured chips are popular in the Middle East. and chicken-flavoured chips are popular in Mexico. There are different flavours from around the world. Americans <u>consume</u> 2–4 billion pounds of potato chips every year and spend more than \$7 billion a year on them. Most of them love it.

.Choose the correct answer from a, b, c and d: (6x 2 = 12m)

The sea is a wonderful place. Some People enjoy swimming and water sports. Other people like sea animals and fish. Our science teacher asked us to make a short video project about sea animals and fish. I went with my father and sister to make my video. I started by taking pictures of the blue sea and the yellow sand. I also took pictures for some sea animals. I found a puffer fish which had very sharp teeth. We saw some turtles with beautiful shells on the beach. They were digging holes to lay their eggs. My father told me that there are very big sea animal s that we don't see always near the beach; like the whale shark which is the largest shark. He told me also that there are very small sea animals that we cannot see with our eyes. I finished the project and gave it to my science teacher who was very happy with it
