Reading Comprehension

Read the following passage carefully, then answer the questions below:

Money has two types; paper money, which is made of special paper and coins which are made from different kinds of metal. Money is very important in our life. Parents can spend it to buy everything that their children need. They can buy food, drinks, clothes, furniture and cars. They can also use it to travel around the world.

People earn money by working at all different kinds of jobs. You can earn money even if you are a child. You can paint a picture, make a card or design a poster and sell them to people. Then, you can use the money you earned to buy all your needs. Also, you can save it in the bank.

Money can be a blessing if we use it in a good way. It can also be a curse if we use it in wars or to hurt others. In fact, money is not everything in life. Money cannot buy happiness or health. There are many people who have little money but still they live a happy and healthy life.
