A The highest point in Kuwait, Mutla Ridge, is a perfect place for camping and hiking. It is a steep slope of rocks and one of the geological features of interest in the country. This area is great for mountain biking during winter because of its **hard-packed** ground.

B It is an unusually extraordinary museum in Kuwait City displaying the creativity and energies developed inside the building. The exterior walls of the House of Mirrors are covered with **murals** of mirror mosaic. Each piece symbolizes a unique meaning. The interior part is completely covered with **splendid** mirror mosaic tiles. Some rooms **hark back** to the good old days of Kuwait. Located in Qadsiya, the house is a private property and belongs to Khalifa and Lidia Al-Qattan. They have turned their house into a museum of incredible mirror art.

C This impressive museum should not be missed. It houses a great collection of items from different countries such as musical instruments, silver and gold jewellery, costumes and pearls. In spite of all these **marvellously** presented pieces, it's the Arabic manuscripts that give the museum its international importance. The museum is a private collection of antiquities by Tareq Rajab and his wife. It is easily identified by its entrance – a carved wooden doorway **flanked** by two smaller doors on each side.

D Several museums in Kuwait exhibit the great history, art, artifacts and much more. Sadu House is a **prodigious** museum that **depicts** Bedouin crafts namely **Sadu weaving**. It is located next to the National Museum of Kuwait. Visitors can discover the art of weaving in different styles and history, too. Sadu House or Bait Al Sadu was previously an old Kuwaiti house which has been **converted** into a cultural center.
