### 3 Read the following, then answer the questions:

If you go to some places in Asia, you might see some amazing snakes which can fly! Scientists have asked why they do this. The answer is that it is easier for the snakes to travel this way because they live in an area full of tall trees. The snakes can fly about 24 metres at ten metres a second. How do they do this? Scientists now know that the snakes put their bodies in the shape of an S and move very slowly. If the scientists hadn't used digital cameras to film them *in slow motion*, we might never have known this.

You told me to ask my father what problems he had had in his life. He said that when he was 20, he had an accident in the desert when he had driven all night. When he was 24, someone took all his money when he travelled to London. If he hadn't travelled to Brazil when he was 30, he wouldn't have been *bitten* by a snake and spent a day in hospital! So I asked him if he wished he hadn't done these things.  
"No, I don't regret anything!" he said. "Remember that it is not what you do that you regret, but what you don't do." I will remember that advice. Tell me what your father says!  
Best wishes,  
Karim
