How to be safe in the kitchen

It is important to be safe in the kitchen. You must roll up long sleeves when you are cooking. You mustn't touch a hot pan in the oven without oven gloves or a towel. You must turn it off immediately when a pan becomes too hot. If oil in a pan catches fire, you mustn't try to move the pan. It is too dangerous.

The fridge

The fridge is a very important invention. People have a fridge in the kitchen. The fridge keeps food cool and fresh. It is very useful in our life. You can also keep water and juice cold in the fridge. Every house has a fridge in it

Mobile phones

Modern mobile phones have cameras. They show films. They play music. They send voicemails. They can send text messages as well. We can't do without them

A laptop

I have got a laptop. It's made in china. It is not expensive. It's only 500 pounds. I can play games on it. I take it with me everywhere.

Computers

Today, many people have computers in their homes. Modern computers are not as large as the first computers. Some of the early computers were as big as a room. Today's computers are much faster. In addition, they are less expensive than the first computers so it is easier to buy them. They are very important.
