A-Asuka

I live in Bangkok, in Thailand. There are a lot of cars in my city and the roads are very busy. That's why I go to school by tuk tuk. It's faster than walking and you don't get stuck in traffic jams!

B-Chiyo

I live on a small island in Hong Kong and I get the ferry to school every day. I like travelling by ferry because, when the weather is good, you can stand on the deck and look at the lovely views of the harbor. But in the winter it gets really cold, even if you sit inside in the cabin.

C-Madoka

I live in Hiroshima in Japan and I go to school by tram. It's quite fast and it stops right outside my school, so I don't have to walk far at all. But it often gets really crowded and sometimes I don't get a seat. I have to hold on tight when it goes around corners, otherwise I fall over!

- 2-Who goes to school by tuk tuk?
- 3-Who goes to school by tram ?

A- Growing

Chocolate is made from beans which grow in pods on a cocoa tree. These beans are grown where it is warm all year round.

B-Farming

The beans are usually farmed two times a year. The workers use a long stick with a large knife to cut the pods down. They open the pods with their hands, so that the beans inside don't break.

C- Fermentation

Next is the fermentation stage. The beans are put into wooden boxes and are covered with banana leaves for a week. Then they are dried in the sun for another week. After that, they go to the factory.

D- Manufacturing

In the factory, the beans are cooked in big ovens. Then the shells are cracked and the inside part is made into a mixture. The mixture is made sweet with sugar, butter and milk.

When the mixture is cold, we have the final product - chocolate!
