

# SUBJECT INDEX

## Magnesium Technology 2011

### 3

3D Microstructure .....583

### A

Adhesion .....543  
 AE44 .....493  
 Age Hardening .....255  
 Ageing .....239  
 Aging .....245  
 Alumina Leaching .....43  
 Aluminum .....325, 549  
 Anisotropy .....205, 475  
 Anisotropy of Mechanical Properties .....199  
 Annealing .....49  
 Anodic Oxidation .....623  
 Armor .....425  
 Asymmetric Rolling .....187  
 Atom Probe Tomography .....223, 255  
 Atomic Force Microscopy .....617  
 Auger .....507  
 AZ31 .....369, 389, 395, 553  
 AZ31 Alloy .....589  
 AZ41 .....553  
 AZ51 .....553  
 AZ61 .....599  
 AZ61 Magnesium Alloy .....67  
 AZ91D .....523

### B

Ballistic Performance .....425  
 Bioabsorbable .....401, 413  
 Biocompatibility .....409  
 Biodegradable Implants .....399, 403, 637  
 Biodegradable Magnesium Implants .....17  
 Biodegradation .....409  
 Biomedical Implants .....419  
 Biomedical Magnesium Alloys .....399  
 Bismuth .....577

### C

Caliber Rolling .....211  
 Calphad .....167  
 CaO .....131  
 CaO·2Al<sub>2</sub>O<sub>3</sub> .....43  
 Casting .....93, 119, 167  
 Casting Defect .....107  
 Cathodic Electrophoretic Deposition .....543  
 Cavitation .....385  
 Chromium .....519  
 CO<sub>2</sub> Reduction .....19  
 Coating .....403, 537  
 Coatings .....531  
 Composites .....457  
 Compression Test .....339  
 Compressive Loading .....273  
 Compressive Strength .....169, 239  
 Computational Material Design .....161  
 Containerless Melting .....119  
 Continuous Casting .....151  
 Conversion Coating .....519, 523  
 Cooling Curve .....35  
 Cooling Rate .....577  
 Corrosion .....403, 409, 513, 519, 531, 611  
 Corrosion Resistance .....537, 543  
 Crack Propagation .....349

Creep .....79, 85, 217, 223, 227  
 Creep Resistance .....571  
 Creep Strain .....73  
 Cryogenic Burnishing .....513  
 Cryogenic Machining .....637  
 Crystal Plasticity .....273, 279, 313, 321  
 Crystallographic Structure .....249  
 Cyclic Stress-Strain .....61

### D

Damage Evolution .....357  
 Deformation .....345  
 Deformation Twinning .....279, 313  
 Dendrite .....101  
 Density Functional Theory .....13  
 Design .....401  
 Die-Cast AZ91 .....61  
 Diecasting .....131  
 Diffusion .....549  
 Directional Solidification .....101, 113  
 Dislocations .....13  
 Drawing .....419  
 Ductility .....131, 447  
 Dynamic Recrystallization .....373, 379  
 Dynamic Strain Aging .....333, 379

### E

EBSD .....301, 389, 475  
 ECAE .....559  
 Electrochemistry .....435  
 Electrolysis .....31  
 Electrolyte .....35  
 Electromagnetic .....151  
 Elemental Partitioning .....217  
 EMC .....151  
 EMS .....151  
 Encapsulation .....435  
 Engine Pulley .....151  
 Environment .....7  
 Equal Channel Angular Pressing .....195, 419  
 Extrusion .....239, 419, 443

### F

Faceted Particle .....175  
 Fatigue .....55, 67, 629  
 Fatigue Modeling .....67  
 Fatigue Strength .....73  
 Finite Element Analysis .....273  
 Forging .....485  
 Formability .....187, 373, 395, 485  
 Forming Limit .....321, 373  
 Fraction Solid .....107  
 Fractography .....61  
 Fracture .....119  
 Fracture Mechanism .....25  
 Fracture Toughness .....85  
 Friction Stir Processing .....199, 205, 565  
 Friction Stir Spot Welds .....629

### G

G.P. Zone .....245  
 Galvanic Corrosion .....493  
 Global Situation .....5  
 Grain Refinement .....175, 181, 211, 513, 559

Grain Refining.....	447
Gravity Casting.....	73

## H

Hardening.....	249
HCP Metal.....	279
Heat Index.....	205
Heat Transfer Coefficient.....	137
Heat Treatment.....	73, 333
Heavy Rolling.....	369
Heterogeneous Deformation.....	273
Hexavalent.....	519
High Pressure Torsion.....	589
High Speed Rolling.....	369
High Temperature Creep.....	233
Homogenization.....	379
Hot Extrusion.....	363, 475
Hot Rolling.....	565
Hot Tearing Susceptibility.....	125
Hot Tears.....	93
Hot Torsion.....	379
Hot Workability.....	169
Hot-extrusion.....	485
Hydrogen Storage Materials.....	431
Hydrostatic Pressure.....	385
Hysteresis Loops.....	61

## I

I Phase.....	157
In-Situ.....	345
In-vivo Corrosion.....	17
Incremental Step Test.....	61
Injection Speed.....	107
Intergranular Corrosion.....	501, 605
Intermetallic Phase.....	447
Intermetallics.....	357
Inverse Method.....	137
Isothermal Heat Treatments.....	167

## K

Kinetic Analysis.....	169
-----------------------	-----

## L

Lightweight Alloys.....	85
Liquid Melt Infiltration.....	463
Liquidus Temperature.....	35
Long Period Stacking Ordered (LPSO) Structure.....	157
Low-cycle Fatigue.....	61
LPSO.....	229

## M

Magnesium.....	25, 31, 39, 43, 85, 101, 107, 175, 187, 211, 233, 285, 289, 295, 301, 313, 321, 325, 339, 345, 357, 385, 395, 403, 409, 413, 443, 453, 457, 519, 531, 549, 559, 583, 595
Magnesium Alloy.....	125, 137, 181, 223, 307, 333, 363, 401, 501, 537, 543, 553, 605, 623
Magnesium Alloy Development.....	161
Magnesium Alloys.....	13, 19, 55, 79, 93, 113, 239, 245, 267, 425, 513, 629, 637
Magnesium Alloy Sheet.....	147
Magnesium AZ31-B Alloy.....	119
Magnesium Billet.....	151
Magnesium Coil.....	143

Magnesium Corrosion.....	507
Magnesium Development.....	5
Magnesium Market.....	3
Magnesium Powder Metallurgy.....	481
Magnesium Powders.....	481
Magnesium Production.....	7
Magnesium Research.....	5
Magnesium Sheet.....	143, 373
Magnesium Single Crystal.....	349
Magnesium-Aluminum Alloy.....	431
Magnesium-Rare Earth.....	565
Magnesium-Zirconium Alloy.....	435
Magnetron Sputtering.....	617
Mechanical Alloying.....	431
Mechanical Couplings.....	493
Mechanical Properties.....	161, 195, 229, 457, 553, 571, 599
Membrane Stability.....	39
Mg.....	611
Mg Alloy.....	199, 229
Mg Alloy Chip.....	485
Mg Alloys.....	131
Mg-5Sn Alloy.....	571
Mg-Al Alloy.....	447
Mg-Al Binary Alloys.....	49
Mg-Matrix Composite.....	463
Mg-Nd-Zn-Zr Alloys.....	249
Mg-Nd-Zn-Zr-Gd/Y Alloys.....	255
Mg-Si Alloy.....	577
Mg-Sn-Ca-Al-Si Alloy.....	169
Mg-Ti Thin Films.....	617
Mg-Zn-Ce.....	267
Mg-Zn-Gd Alloys.....	157
Mg-Zn-Ca-Mn Alloy.....	195
Micro-Alloying.....	227
Micro-Arc Oxidation.....	537
Microcompression.....	321
Microhardness Evolution.....	589
Microstructure.....	61, 107, 113, 119, 161, 195, 261, 345, 357, 363, 571
Microstructures.....	599
Modeling.....	93, 583
Modeling of Corrosion.....	605
Modification.....	577
Modified Oxidation Film.....	623
Molecular Dynamics.....	295, 325
Molecular Dynamics Simulation.....	349
Molten Salt.....	35
Multiphase Diffusion.....	49
Multipolar.....	31

## N

Nano-Crystalline Materials.....	431
Nano-indentation.....	79
Nanocomposite.....	447
Nanocomposites.....	443, 463
Nanocrystalline.....	453
Nanocrystallized Grain.....	637
Nanoindentation.....	617
Necking.....	307
Neutron Diffraction.....	595
Non-SF <sub>6</sub> .....	131
North America.....	3
Nucleation.....	285

## O

Orientation Relationship.....	249
-------------------------------	-----

## P

Particle Size Distribution.....	175
---------------------------------	-----

Phase Diagram	267
Phase Identification	147
Physical Vapor Deposition	611
Pitting Corrosion	501, 605
Plasma Electrolytic Oxidation	543
Plastic Deformation	13, 307, 595
Plasticity	301, 583
Porosity	61
Powder Metallurgy	457, 463, 475
Precipitate	255
Precipitates	289
Precipitation	217, 227, 267
Precipitation Hardening	261
Precipitation Sequence	249
Processing Maps	169
Pure Magnesium	279

## Q

Quasicrystal	239
--------------	-----

## R

R-value	307
Rapid Solidification Process	425
Rare Earth	167
Rare Earth - Lanthanum	507
Rare Earths	113
Recrystallization	369
Recycling	7, 485
Reduction	39
Replica	67
Resistance Spot Weld	629
Roller Hemming	389
Rolling	369

## S

Segregation	147
Semi-Solid	107
Shear Bands	389
Shear Strain	211
Sheet	395
Shrinkage Porosity	93
Shuffling	285
Single Crystal	295, 325
Sintering Phenomena	481
SiO <sub>2</sub> -Al <sub>2</sub> O <sub>3</sub> Sol	623
Solidification	267, 559
Solute Cerium	333
Solute Strengthening	217
SOM	39
Spinning Water Atomization Process (SWAP)	425
Sputtering	611
Squeeze Casting	137
Stent	413
Stents	419
Strain Rate	349
Strain-Life	61
Strength	131, 453
Strip Casting	143
Structure-property Relations	55
Superplasticity	385
Surface Treatment	403
Sustainability	19

## T

TEM	175, 255, 289
-----	---------------

Temperature Effects	349
Tensile Behavior	205
Tensile Properties	577
Tensile Strength	73, 239
Texture	187, 199, 211, 233, 301, 339, 363, 373, 565, 583, 599
Texture Evolution	369
Thermal Stability	453
Thermodynamics	339
Thermomechanical Processing	599
Thixomolding	599
Ti	611
Toughness	25
Transient	101
Transmission Electron Microscopy	223
Trivalent	519
Twin Accommodation Effects	313
Twin Nucleation	295, 325
Twin Roll Cast	147
Twin Roll Casting	143, 261
Twinning	273, 285, 289, 301, 321, 389, 595
Twins	25

## U

Ultrafine Microstructure	19
Ultrasonic Dispersion	443

## V

Vacuum Aluminothermic Reduction	43
---------------------------------	----

## W

Warm Forming	395
WE43	379
Work Hardening	205

## X

X-ray Diffraction	617
XPS	507

## Y

Yttrium	339
---------	-----

## Z

Zirconia	523
Zirconium (Zr)	175, 181
