

THIRD EDITION

The background of the cover features a pair of scales of justice, rendered in a teal color. The scales are positioned diagonally, with the pans hanging from a central point. The lighting creates a dramatic effect, with rays of light emanating from behind the scales, giving them a three-dimensional appearance. The overall color palette is a monochromatic teal, with the text in white for high contrast.

This class includes a wide variety of works: fiction, nonfiction, poetry, textbooks, reference works, directories, catalogs, advertising copy, compilations of information, and computer programs. For periodicals and serials, use Form SE.

**Deposit to Accompany Application:** An application for copyright registration must be accompanied by a deposit consisting of copies or phonorecords representing the entire work for which registration is to be made. The following are the general deposit requirements as set forth in the statute:

**Unpublished Work:** Deposit one complete copy (or phonorecord)

**Published Work:** Deposit two complete copies (or one phonorecord) of the best edition.

**Work First Published Outside the United States:** Deposit one complete copy (or phonorecord) of the first foreign edition.

**Contribution to a Collective Work:** Deposit one complete copy (or phonorecord) of the best edition of the collective work.

**The Copyright Notice:** Before March 1, 1989, the use of copyright notice was mandatory on all published works, and any work first

published before that date should have carried a notice. For works first published on and after March 1, 1989, use of the copyright notice is optional. For more information about copyright notice, see Circular 3, *Copyright Notices*.

NOTE: No other adequacy statement will be given in conjunction with this application. Please keep this statement and file it if we communicate with you regarding this application.

### LINE-BY-LINE INSTRUCTIONS

*Please type or print using black ink. The form is used to produce the certificate.*

## **1** SPACE 1: Title

**Title of This Work:** Every work submitted for copyright registration must be given a title to identify that particular work. If the copies or phonorecords of the work bear a title or an identifying phrase that could serve as a title, transcribe that wording completely and exactly on the application. Indexing of the registration and future identification of the work will depend on the information you give here.

**Previous or Alternative Titles:** Complete this space if there are any additional titles for the work under which someone searching for the registration might be likely to look or under which a document pertaining to the work might be recorded.

**Publication as a Contribution:** If the work being registered is a contribution to a periodical, serial, or collection, give the title of the contribution in the "Title of This Work" space. Then, in the line headed "Publication as a Contribution," give information about the collective work in which the contribution appeared.

## **2** SPACE 2: Author(s)

**General Instructions:** After reading these instructions, decide who are the "authors" of this work for copyright purposes. Then, unless the work is a "collective work," give the requested information about every "author" who contributed any appreciable amount of copyrightable matter to this version of the work. If you need further space, request Continuation Sheets. In the case of a collective work, such as an anthology, collection of essays, or encyclopedia, give information about the author of the collective work as a whole.

**Name of Author:** The fullest form of the author's name should be given. Unless the work was "made for hire," the individual who actually created the work is its "author." In the case of a work made

for hire, the statute provides that "the employer or other person for whom the work was prepared is considered the author."

**What is a "Work Made for Hire"?** A "work made for hire" is defined as (1) "a work prepared by an employee within the scope of his or her employment"; or (2) "a work specially ordered or commissioned for use as a contribution to a collective work, as a part of a motion picture or other audiovisual work, as a translation, as a supplementary work, as a compilation, as an instructional text, as a test, as answer material for a test, or as an atlas, if the parties expressly agree in a written instrument signed by them that the works shall be considered a work made for hire." If you have checked "Yes" to indicate that the work was "made for hire," you must give the full legal name of the employer (or other person for whom the work was prepared). You may also include the name of the employee along with the name of the employer (for example: "Elster Publishing Co., employer for hire of John Ferguson").

**"Anonymous" or "Pseudonymous" Work:** An author's contribution to a work is "anonymous" if that author is not identified on the copies or phonorecords of the work. An author's contribution to a work is "pseudonymous" if that author is identified on the copies or phonorecords under a fictitious name. If the work is "anonymous" you may: (1) leave the line blank; or (2) state "anonymous" on the line; or (3) reveal the author's identity. If the work is "pseudonymous" you may: (1) leave the line blank; or (2) give the pseudonym and identify it as such (for example: "Huntley Havenstock, pseudonym"); or (3) reveal the author's name, making clear which is the real name and which is the pseudonym (for example, "Judith Barton, whose pseudonym is Madeline Elster"). However, the citizenship or domicile of the author must be given in all cases.

**Dates of Birth and Death:** If the author is dead, the statute requires that the year of death be included in the application unless the work is anonymous or pseudonymous. The author's birth date is optional but is useful as a form of identification. Leave this space blank if the author's contribution was a "work made for hire."

**Author's Nationality or Domicile:** Give the country of which the author is a citizen or the country in which the author is domiciled. Nationality or domicile must be given in all cases.

**Nature of Authorship:** After the words "Nature of Authorship," give a brief general statement of the nature of this particular author's contribution to the work. Examples: "Entire text"; "Coauthor of entire text"; "Computer program"; "Editorial revisions"; "Compilation and English translation"; "New text."

### 3 SPACE 3: Creation and Publication

**General Instructions:** Do not confuse "creation" with "publication." Every application for copyright registration must state "the year in which creation of the work was completed." Give the date and nation of first publication only if the work has been published.

**Creation:** Under the statute, a work is "created" when it is fixed in a copy or phonorecord for the first time. Where a work has been prepared over a period of time, the part of the work existing in fixed form on a particular date constitutes the created work on that date. The date you give here should be the year in which the author completed the particular version for which registration is now being sought, even if other versions exist or if further changes or additions are planned.

**Publication:** The statute defines "publication" as "the distribution of copies or phonorecords of a work to the public by sale or other transfer of ownership, or by rental, lease, or lending." A work is also "published" if there has been an "offering to distribute copies or phonorecords to a group of persons for purposes of further distribution, public performance, or public display." Give the full date (month, day, year) when, and the country where, publication first occurred. If first publication took place simultaneously in the United States and other countries, it is sufficient to state "U.S.A."

### 4 SPACE 4: Claimant(s)

**Name(s) and Address(es) of Copyright Claimant(s):** Give the name(s) and address(es) of the copyright claimant(s) in this work even if the claimant is the same as the author. Copyright in a work belongs initially to the author of the work (including, in the case of a work made for hire, the employer or other person for whom the work was prepared). The copyright claimant is either the author of the work or a person or organization to whom the copyright initially belonging to the author has been transferred.

**Transfer:** The statute provides that, if the copyright claimant is not the author, the application for registration must contain "a brief statement of how the claimant obtained ownership of the copyright." If any copyright claimant named in space 4 is not an author named in space 2, give a brief statement explaining how the claimant(s) obtained ownership of the copyright. Examples: "By written contract"; "Transfer of all rights by author"; "Assignment"; "By will." Do not attach transfer documents or other attachments or riders.

### 5 SPACE 5: Previous Registration

**General Instructions:** The questions in space 5 are intended to show whether an earlier registration has been made for this work and, if so, whether there is any basis for a new registration. As a general rule, only one basic copyright registration can be made for the same version of a particular work.

**Same Version:** If this version is substantially the same as the work covered by a previous registration, a second registration is not generally possible unless: (1) the work has been registered in unpublished form and a second registration is now being sought to cover this first published edition; or (2) someone other than the

author is identified as copyright claimant in the earlier registration, and the author is now seeking registration in his or her own name. If either of these two exceptions applies, check the appropriate box and give the earlier registration number and date. Otherwise, do not submit Form TX. Instead, write the Copyright Office for information about supplementary registration or recordation of transfers of copyright ownership.

**Changed Version:** If the work has been changed and you are now seeking registration to cover the additions or revisions, check the last box in space 5, give the earlier registration number and date, and complete both parts of space 6 in accordance with the instructions below.

**Previous Registration Number and Date:** If more than one previous registration has been made for the work, give the number and date of the latest registration.

### 6 SPACE 6: Derivative Work or Compilation

**General Instructions:** Complete space 6 if this work is a "changed version," "compilation," or "derivative work" and if it incorporates one or more earlier works that have already been published or registered for copyright or that have fallen into the public domain. A "compilation" is defined as "a work formed by the collection and assembling of preexisting materials or of data that are selected, coordinated, or arranged in such a way that the resulting work as a whole constitutes an original work of authorship." A "derivative work" is "a work based on one or more preexisting works." Examples of derivative works include translations, fictionalizations, abridgments, condensations, or "any other form in which a work may be recast, transformed, or adapted." Derivative works also include works "consisting of editorial revisions, annotations, or other modifications" if these changes, as a whole, represent an original work of authorship.

**Preexisting Material (space 6a):** For derivative works, complete this space and space 6b. In space 6a identify the preexisting work that has been recast, transformed, or adapted. The preexisting work may be material that has been previously published, previously registered, or that is in the public domain. An example of preexisting material might be: "Russian version of Goncharov's 'Oblomov.'"

**Material Added to This Work (space 6b):** Give a brief, general statement of the new material covered by the copyright claim for which registration is sought. Derivative work examples include: "Foreword, editing, critical annotations"; "Translation"; "Chapters 11-17." If the work is a *compilation*, describe both the compilation itself and the material that has been compiled. Example: "Compilation of certain 1917 speeches by Woodrow Wilson." A work may be both a derivative work and compilation, in which case a single statement might be: "Compilation and additional new material."

### 7, 8, 9 SPACE 7, 8, 9: Fee, Correspondence, Certification, Return Address

**Deposit Account:** If you maintain a Deposit Account in the Copyright Office, identify it in space 7a. Otherwise leave the space blank and send the fee with your application and deposit.

**Correspondence (space 7b):** Give the name, address, area code, telephone number, fax number, and email address (if available) of the person to be consulted if correspondence about this application becomes necessary.

**Certification (space 8):** The application cannot be accepted unless it bears the date and the handwritten signature of the author or other copyright claimant, or of the owner of exclusive right(s), or of the duly authorized agent of author, claimant, or owner of exclusive right(s).

**Address for Return of Certificate (space 9):** The address box must be completed legibly since the certificate will be returned in a window envelope.

Copyright Office fees are subject to change. For current fees, check the Copyright Office website at [www.copyright.gov](http://www.copyright.gov), write the Copyright Office, or call (202) 707-3000.
